

Volunteer with
Team Grace

Welcome to Grace

First I want to say thank you for wanting to help make a difference for those who have nothing. I hope you, like myself, will find that it is not just our friends from the street who benefit from our help, but that they give us so much back in return. The experiences that I have had here continue to leave me with a deep sense of gratitude, and I wish the same for you :)

As a volunteer at Grace, you will get to experience an atmosphere and culture that I hope you will agree is special and unique--one that thrives on mutual respect and love.

At Grace, we believe that each and every person has value. Everyone who walks through our doors shall be met with love, and be included, accepted, and respected <3

Welcome to our Grace family. We're excited to get to know you!

Greetings,
Aicha Lind

Grace's story

GraceKBH, which is part of Blue Cross Denmark, opened in 2012. Every winter, we open the emergency shelter during the coldest months. We serve dinner to 20 people before tucking them into a warm bed for the night. Throughout the warmer months of the year, we function as a morning cafe, where we serve breakfast to anyone who needs a good start to the day and someone to talk with.

Our friends from the street

At Grace, our doors are open to all homeless people, but we are mainly visited by homeless immigrants. They come from countries such as Spain, Italy, Romania and several African countries.

Most of the people who come to Grace have family around the world that they have to support, but they come from places with very few job opportunities. Many of them are therefore forced to leave their families to come to Denmark to collect bottles on the street and try to find work. The little money that they are able to make is then sent back to their families, so that they can survive.

Our friends from the street are often fathers and mothers who need a place where they can get a hot meal, a cup of coffee, a game of cards, and a good chat.

When they come to Grace, they are usually cold and tired after having been out on the street for many hours in a row. They are more vulnerable and need a safe place to relax.

What do we expect from you?

Grace relies almost entirely on volunteers in order to keep its doors open every day. Your role is extremely important, and we can't keep Grace running without you.

Once you have signed up for a shift, it is extremely important that you show up on time. The person in charge has planned the shift around how many volunteers have signed up, and if you can't make it for any reason or are running late, we ask you to please let us know as soon as possible. We always need at least two volunteers to show up for each shift (three during the winter months), or we are not allowed to open. Sometimes you are the difference between whether or not we can open the doors, and if you are a no-show, we have to go down and break the news to the guys that we can't let them in :(

At Grace, we meet everyone with respect. The people who visit us are in an extremely vulnerable situation, for a variety of different reasons. They may be feeling ashamed of their circumstances, could be struggling with their mental health, may have different cultural or religious practices than you are used to, or may not have had access to a shower or clean clothes in a long while. It is important that everyone who comes to visit us feels that Grace is a safe space for them to be, where they will be treated with respect, and without judgement.

We also expect the guys to give you respect in return. I am confident that our volunteers would all agree that the people who visit Grace are super sweet and respectful. But if someone ever says or does something that makes you feel uncomfortable, you should always report it to the person in charge on your shift. As much as Grace is here to support the guys, our volunteers are always our

number one priority, because without you, we couldn't keep Grace open! We want you to feel safe, happy, and relaxed while you are at Grace, and if something happens to make you feel otherwise, you should never hesitate to let us know!

The shifts

On each shift, there will always be one person in charge, as well as 2+ volunteers. If you have any questions, problems or anything else you want to talk about, you can always ask the person in charge.

If you are running late or can't make it to your shift, you must write to the person in charge of your shift and let them know ASAP, either by text or facebook message. You can find out who is in charge by looking at the schedule (the name at the top on the day of your shift).

Morning Cafe (April-November)

07.30-11.15

When you get to Grace, you will help the person in charge finish preparing the food for the day. They may ask you to make coffee, tea, cut bread, etc. At 08.00, we open the doors to all of our friends from the street.

While we are open, you will help serve the guys food, do the dishes, tidy the tables, help the guys collect things from their storage box in the basement, etc. If we have a lot of helping hands, there will also be time to visit with the guys and play cards or board games.

Winter Shelter (December-March)

1. Evening shift

19.00-23.00

We will need at least three volunteers to sign up for the evening shift to open. When you arrive, you will help the person in charge prepare dinner and set up the tables. They may ask you to cut bread, make salad, coffee, tea, etc. At 19.30, the person in charge and one volunteer will go out and do the lottery to find 20 people that can come in for the night. At 20.00, we open the doors for the guys. The first hour we are open, we serve food and help each other in the kitchen. Then you can freely sit and play a game of cards, a game of chess or talk with our friends. Sometimes there are also practical things that need to be addressed such as giving out sleeping bags, as well as providing advice about what it means to be homeless in Denmark. At 22.00, we will set up the mattresses and tuck the guys in. Finally, we make sure all the dishes are done and the kitchen is neat and tidy.

2. Night shift

22.30-08.00

We need to have two night shifts signed up before 19.00 in order to open Grace for the evening!

If you have signed up on a night shift and are unable to come, it is extremely important that you call the person in charge of the shift that day ASAP. You can find their contact info in the pinned post at the top of the facebook group "Team Grace".

You will start with a debrief of the evening with the person in charge of the evening shift, to hear if there is something you have to pay

special attention to during the shift. You are free to read, watch movies/netflix etc. during the night shift. Your job is to make sure that there is peace and order during the night, and help our friends from the street if there are problems, or if they wake up.

At 06.30, you will start preparing breakfast. You will need to make 20 sandwiches, as well as some coffee and tea. At 7.00, the person in charge of the morning shift will arrive and wake up the guys and help you to serve breakfast.

General rules

Alcohol

It is strictly forbidden to have or consume alcohol or other intoxicants at Grace and on the church premises, both inside and outside the café's opening hours - this applies to both the volunteers and our friends from the street. If you see one of our friends from the street drinking alcohol at Grace, you must let the person in charge know right away.

Smoking

Smoking is not allowed inside. The guys can smoke outside their entrance door, and the volunteers can smoke at our entrance, or outside the guys' door.. Please remember to use the ashtray. It is forbidden to sit inside on the stairs and smoke!

Staying on church premises

The guys should not remain on the church premises outside opening hours. If this happens, we are responsible to get them away from church premises, and if it happens repeatedly, they will get quarantine.

The basement storage room

Our friends from the street should never be alone in the basement. If one of the guys needs to make a new box, please do not make it yourself! Tell the person in charge so they can maintain an overview of who has boxes and who doesn't.

In crisis situations

We have emergency plans hanging in the eating area. It is your responsibility to orient yourself so you can find the exit in case of fire, or if someone needs medical attention. The rule of thumb here is that it's better to call 112 one time too many than one too little. In case of an emergency, always get ahold of the person in charge immediately so that they can take control of the situation.

You can at any time ask the person in charge if you need to talk about experiences or situations that you think have been unpleasant.

In times of crisis, you are entitled to a crisis psychologist - in these cases, contact the person in charge and / or Aicha Lind.

Quarantine

Drinking /doing drugs will generally give a one-day quarantine and fighting generally gives a seven-day quarantine, but this is always assessed in each situation.
